

August 29, 2017
AP Chemistry 1-1-2
Objective: Safety Quiz

1. Describe three principle concerns in the chemistry lab and what safety practices are required to address these concerns?
2. What is Coulomb's Law? Look up Coulomb's Law and describe the forces involved in the Energy between particles.

Assignment: Lab Chemical Reactions Wed. – Friday, due Friday, September 7. Notes Chapter 6 due September 10. Worksheet A due Sept. 5. Don't forget about chapter problems! You must score a 100% on the safety quiz in order to begin lab tomorrow, otherwise you will have to make up the lab at a later date once the score is achieved.
